DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 6, 9-15, 24-26, and 29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

With respect to claims 6 and 9, the method does not produce a useful, concrete, and tangible result. It is unclear how the result is being stored, displayed, or used in any tangible manner. To view the new guidelines for 35 U.S.C. 101 please view the following OG notice.

<http://www.uspto.gov/web/offices/com/sol/og/2005/week47/patgupa.htm>

Allowable Subject Matter

Claims 1-5, 7-8, 17-23, 27-28, and 30-32 are allowed.

The reason for allowance of the claims 1-5, 7-8, 17-23, 27-28, and 30-32 is the inclusion of a multi-position foot for positioning the test unit in different orientations, the multi-position foot comprising a first pivotable support arm coupled to a first bar having a slotted retainer and an adjustment rod extending into the slotted retainer, the adjustment rod movable to different slots of the slotted retainer so that the test unit is placed in a different orientation by moving the adjustment rod to a different one of the slots as in claims 1, 8, and 19; a back module having a power supply providing electrical power to the each of the application modules as in claim 7; each of the application modules having a rotatable latch that rotates to mate with a respective latch of another of the application modules as in claims 17 and 21.

Response to Arguments

Applicant's arguments with respect to claims 1-15 and 17-32 have been considered but are moot in view of the new ground(s) of rejection.
